As the most comprehensive caravan and tourist park guide in Australia, Caravan Parks Australia Wide is a must have travelling companion. Whether you are a caravanner, motor homer or a traveller looking for cabin style accommodation, this guidebook contains all the information you need to find a place to stay. A numbered caravan symbol has been placed on the map at each town or location where a park can be found and each state has an index of parks at the beginning of the listing that can be used as a quick reference. Travellers can also use the informative symbols in the book to determine whether a park meets their needs. Coloured symbols are included on each listing to inform the reader about facilities such as powered sites, en-suite sites, tent sites, BBQ, pool, approximate cost, pets allowed, large sites, drive thru sites and dump points. Plan your trip on or off the road by checking the map for caravan symbols on your planned route, seeing at a glance what facilities are available at certain parks and using the GPS coordinates included in the book to find your desired location. Finding a park that meets your needs has never been easier. From their haunts in the shadowy corner of a bar, front and center at a convenience store, or reigning over a massive mall installation bursting with light, sound, and action, arcade games have been thrilling and addicting quarter-bearers of all ages ever since Pong first lit up its paddles. Whether you wanted a few minutes' quick-twitch exhilaration or the taste of three-initial immortality that came with topping the high score screen, you could get it from the diverse range of space shooters, dot-eating extravaganzas, quirky beat-'em-ups, and more that have helped define pop culture for more than four decades. In *Attract Mode: The Rise and Fall of Coin-Op Arcade Games*, author Jamie Lendino celebrates both the biggest blockbusters (Pac-Man, Star Wars: The Arcade Game) and the forgotten gems (Phoenix, Star Castle) of the Golden Age of coin-op gaming, and pulls back the curtain on the personalities and the groundbreaking technologies that brought them to glitzy, color-drenched life in the U.S., Japan, and all over the world. You'll start your journey exploring the electromechanical attractions and pinball games of the early 20th century. Next, you'll meet the earliest innovators, who used college computers and untested electronics to outline the possibilities of the emerging form, and discover the surprising history behind the towering megahits from Nintendo, Sega, and others that still inform gaming today. Then you'll witness the devastating crash that almost ended it all—and the rebirth no one expected. Whether you prefer the white-knuckle gameplay of *Robotron: 2084*, the barrel-jumping whimsy of *Donkey Kong*, or the stunning graphics and animation of *Dragon's Lair*, *Attract Mode* will transport you back to the heyday of arcade games and let you relive—or experience for the first time—the unique magic that transformed entertainment forever. Nicole Layton is a desperate woman. Her husband, Senator Linus Layton, not only abuses her but holds Nicole's brain-damaged niece hostage to keep Nicole in line. The teal-eyed beauty is no dumb blonde. Her plan to escape during their upcoming anniversary cruise in the Mediterranean and hide out in Spain goes array when the cruise ship wrecks off the coast of Italy. With a leap of faith, she jumps early and rows for hours. Later, weary and exhausted, she drags her inflatable raft onto the Italian mainland having no ID nor a way to get home. She's come so far on her wits and planning, but she's out of ideas. Austin Stevens knows when a woman is in trouble. Hired by the Senator's insurance company to prove foul play, Austin Stevens of Stevens Security hunts for the presumed dead woman. He's on a race against time and pitted against a clever enemy. To collect on the multi-million dollar Insurance policy, Layton must produce the dead body of his wife. He hires Black Adder, a private paramilitary operation to ensure that her body will be delivered. Monumental forces are at work. With chaos at every turn will Austin rescue her before Black Adder finds her? Even if he does, will her husband ever stop hunting her? This is not the first woman Austin Stephens has helped, but she is the only one who has him spinning in the wind. In Evangelist Marketing, Alex Goldfayn argues that technology companies succeed in spite of their marketing, not because of it. He says that if consumer tech makers ceased all marketing activity today, they would not see a significant decline in sales. In this book, Alex presents why the current state of overly-technical, features-oriented tech marketing, branding, communications and public relations is costing the industry billions of dollars—easy money that's voluntarily being left on the table. Then he lays out a step-by-step system for creating intensely loyal brand evangelists based on deep consumer insights and simple, emotional language. Evangelist Marketing is written for consumer tech companies big and small—from PC manufacturers to Web-based services. It's also sure to improve the work of their marketing and public relations agencies. With GPS For Dummies, 2nd Edition in hand, you'll venture forth with confidence! This book gives a comprehensive overview of all relevant elements in topography and their practical application. It elaborates on the classical representation of terrain on maps such as cartographic projections, together with their classification, scale, and geographical elements. It is richly illustrated with photographs, maps and figures, in which the theoretical explanations are clarified. Readers will become acquainted with the physical characteristics of the ground, i.e. tectonic and erosive shapes, the importance and classification of terrain, genetic (fluvial, abrasive, glacial, karst) and topographic types such as higher (mountains, hills, peaks) and lower terrain (valleys, fields). In addition, the book discusses cartometry and coordinate systems, orientation in space (geographic, topographic, tactical) including by means of maps, instruments and the night sky and elaborates new techniques and technologies such as aerial photogrammetric imagery, global navigation satellite systems and LiDAR. The book also includes methods for the practical execution of concrete measurement operations, such as determining position and movement on land with maps, compass and azimuth which makes it especially useful for practitioners and professionals, e.g., for landscape planning, military exercises, mountaineering, nature walks etc. As such it offers a valuable guide not only for undergraduate students but also for researchers in the fields of geography, geosciences, geodesy, ecology, forestry and related areas looking for an overview on topography. Uniquely, the book also features an extensive glossary of topographical terms. In 2004 Charley Boorman completed his astonishing round-the-world bike trip with his friend, Ewan McGregor. The journey left him exhausted, exhilarated and hungry for a new challenge. And what greater challenge than the Dakar rally? Beginning in Lisbon and ending in the Senegalese capital of Dakar, the rally covers 15,000 kilometres of treacherous terrain, and is widely regarded as the most dangerous race on earth. With his team-mates Simon Pavey and Matt Hall, Charley faced extreme temperatures, rode through shifting sands and stinging winds, and faced breakdowns miles from civilisation. Charley recounts his extraordinary adventures through Portugal, Morocco, Western Sahara, Mauritania, Mali, Guinea and Senegal. He also follows the stories of other riders - an eccentric, dedicated band of professionals and rookies who all dream of one thing: reaching the finishing line. Race to Dakar is the thrilling account of a race that has captured the imagination of millions.
