There is no more important substance on earth than water: it is the source of life, one of the four classic elements and makes up over 70% of our bodies and our planet. This remarkable new book allows us to discover and understand more about this most common of molecules. Water is the most common, and also the most important substance on Earth. We are hypnotically attracted to its simplicity, purity and transparency, as well as its astonishing physical behaviour, structural vibrations and ordered flow, not to mention its amazing therapeutic virtues. They have drawn parallels with spiritual growth: water is always ready to change, to adapt itself, to create and transform; it could be seen as nature's guide to improving and renewing ourselves in wisdom and serenity. By going further than just describing its attributes and celebrating its physical properties, *The Hidden Secrets of Water* seeks to uncover and understand the true depths of this most enigmatic of elements, taking the reader on a journey of discovery that covers the whole spectrum of water's influence, traversing scientific, social and spiritual planes. From the Ancient Chinese concept of Yin and Yang to numerical and literary symbolism in the Torah, the Fibonacci sequence to string theory, this innovative, intelligent and far-reaching exploration seamlessly brings together modern science and ancient wisdom, technology and humanism, logic and mysticism in a way that will inspire and stimulate all. The tale begins over three-hundred years ago, when the Fair People—the goblins, fairies, dragons, and other fabled and fantastic creatures of a dozen lands—fled the Old World for the New, seeking haven from the ways of

Man. With them came their precious jewels: diamonds, rubies, emeralds, pearls... But then the Fair People vanished, taking with them their twelve fabulous treasures. And they remained hidden until now... Across North America, these twelve treasures, over ten-thousand dollars in precious jewels in 1982 dollars, are buried. The key to finding each can be found within the twelve full-color paintings and verses of THE SECRET. Are you smart enough? THE SECRET: A TREASURE HUNT was published in 1982. The year before publication, the author and publisher Byron Preiss had traveled to 12 locations in the continental U.S. (and possibly Canada) to secretly bury a dozen ceramic casques. Each casque contained a small key that could be redeemed for one of 12 jewels Preiss kept in a safe deposit box in New York. The key to finding the casques was to match one of 12 paintings to one of 12 poetic verses, solve the resulting riddle, and start digging. Since 1982, only two of the 12 casques have been recovered. The first was located in Grant Park, Chicago, in 1984 by a group of students. The second was unearthed in 2004 in Cleveland by two members of the Quest4Treasure forum.
