Strengthen Your Paintings with Dynamic Composition Oct 06 2020 Create compelling paintings by mastering composition techniques While happy accidents may occasionally contribute to producing strong, eye-catching paintings, conscious composition is more important. According to author Frank Webb, "Composition is more important than fact, technique or subject." To create compelling, expressive works, you must make the composition the foundation of your plan. This book provides example-by-example demonstrations of how you can achieve this. The works of 24 professional artists featured in this book give you an over-the-shoulder look at how to apply composition techniques. Armed with this information, you can paint a powerful picture and--just as importantly--analyze and improve a work that has gone wrong. "Strengthen Your Paintings with Dynamic Composition" is an indispensable addition to the artist's library that you will read and refer to again and again. Webb's memorable instruction will guide the beginner through composition challenges and serve as a reference for the experienced painter. Frank Webb, a professional artist since 1947, is a Dolphin Fellow of the American Watercolor Society, which he has represented in international exhibitions in Canada, New York, England, Scotland, and Mexico City. A frequent instructor in all 50 states, juror, and lecturer, Webb has received over 110 major medals and awards from national and international competitions, including six from the American Watercolor Society. Collectors of Webb's paintings include National Academy of Art Education Center, Baylor University, Palmer Museum of Art at Penn State University, Portland Museum of Art, and South Arkansas Arts Center, to name a few. Webb is featured in "Who's Who in American Art" and "Who's Who in the South" and he is also a member of the Allied Artists of America, Audubon Artists, the Rocky Mountain National Watercolor Society, and many other art associations.
