Haynes disassembles every subject vehicle and documents every step with thorough instructions and clear photos. Haynes repair manuals are used by the pros, but written for the do-it-yourselfer. Stop being a servant of the life you're living and become a creator of the world you want. Electrifying lessons in power, influence and persuasion to equalise women in an unequal world. Why do so many women feel they're too much yet not enough? How can you feel 'good and mad' yet reluctant to speak up in a meeting or difficult conversation? What causes women to freeze at critical moments? Kasia Urbaniak spent 17 years studying to become a Taoist nun. To foot the bill for her studies, she worked as a high-paid (and extremely successful) dominatrix in dungeons around New York City. What she learned in these two wildly different settings has turned into her life's work. UNBOUND brings Urbaniak's unique teachings for women on speaking power, persuading others and navigating conflict to a mainstream audience for the first time. Part polemic, part practical, it opens women's eyes to why they frequently find it so difficult – personally, professionally and socially – to raise their voices, why they freeze in challenging circumstances and what they can do to change this. Too often women find themselves in the role of 'sub' when they need to be more 'dom' – in short they are paralysed by their Good Girl Syndrome and a deep-seated need to please everyone and anyone except themselves. UNBOUND offers precise, practical instruction in how to stand in your power, find your voice and use it well. Part manual, part manifesto, it will help you cut through layers of self-censoring and self-doubt to go after what you truly want, and live your wildest, best and most satisfying life. Models covered: UK - Fiesta Base, L and Ghia, 957cc; Fiesta Base, L, GL, Sport (S) and Ghia, 1117cc; Fiesta Base, L, GL, Sport (S) and Ghia, 1298cc; Fiesta XR2, 1598cc : USA - Fiesta Base, Decor, Sport (S) and Ghia 97 cu. in. First published in 1989 as *Tuning New Generation Engines*, this best-selling book has been fully updated to include the latest developments in four-stroke engine technology in the era of pollution controls, unleaded and low-lead petrol, and electronic management systems. It explains in non-technical language how modern engines can be modified for road and club competition use, with the emphasis on power and economy, and how electronic management systems and emission controls work.
