Law and American Education Apr 23 2022 Educators working with Palestini's textbook *Law and American Education: a Case Brief Approach* will find this comprehensive pedagogical tool useful. This guide for instructors contains the full briefs for the cases excerpted in that volume, as well as diacritical and pedagogical suggestions. In addition to chapter-by-chapter methodology, the manual also contains a sample syllabus, sample examinations, and a supplement on the controversial issue of sexual harassment. This is an excellent companion for educators with no background in school law.

Supreme Court Cases on Political Representation, 1787-2001 Jun 25 2022

This book includes every Supreme Court case relevant to elections and political representation from the Court's beginnings to 2001, including the 2001 decision in *Cook v. Gralike* that limited citizens' rights to instruct Federal representatives. It is a primary document reference book organized topically in sixteen chapters. Every case is included either as a full (edited) opinion, extensive excerpts of the opinion, or a detailed description of the case. As with the companion volume on gender and sexual equality, using this single volume a researcher can see how American legal history on the topic played out in its entirety. A Table of Cases, relevant Federal statutes, and an extensive bibliography further enhance the volume's usefulness.

Education and the Legal System Oct 25 2019 Here is a complete yet accessible guide to the laws that most often affect policies and procedures in educational institutions. A conversational, reader-friendly tone pervades the book; its practical, case-study approach makes the discussion of key legal issues and examples of landmark cases easy for the reader to understand. Its focus is the practice of “preventive law,” allowing readers to recognize legal issues and challenges when they occur. Up-to-date cases involving subjects and situations that readers can easily relate to (school violence, inclusion, sexual harrasment, and other topical subjects) along with information about how to “brief” cases, help users quickly learn and disseminate often complex material. A full chapter on “ parents' rights” , unique to this book, ensures that readers understand the legal position of parents in the educational arena; a comprehensive appendix, Resources for Administrators, familiarizes them with legislation that is pertinent to education. Coverage includes: torts and school liability, religion in schools, students with disabilities, students' rights, discipline, teachers' rights, and equal coverage under the law. The comprehensive resource for teachers, administrators, parents, and guardians, this book serves as an excellent desk reference for anyone involved or interested in the legal aspects of effective education.

United States Supreme Court Reports Jan 09 2021 First series, books 1-43, includes "Notes on U.S. reports" by Walter Malins Rose.

Education Law Mar 23 2022 First published in 2000. Routledge is an imprint of Taylor & Francis, an informa company.

Teachers Beyond the Law May 25 2022 Before the late 1950s and the early 1960s, teachers in Illinois and the rest of the country generally did not participate in a formal process to establish their salaries and working conditions or to influence policies that affected the nature and quality of their services. *Teachers beyond the Law* tells how a group of groundbreaking educators organized unions and established collective bargaining as a process to determine their own economic and professional destinies. Because the laws of the state and nation not only gave little recognition to their rights but also actually established multiple layers of legal and bureaucratic barriers to their unions, teachers and their leaders were frequently punished for using traditional union methods to assert their rights as citizens and professionals. They were discriminated against or fired for joining unions or participating in union activities. Courts routinely enjoined their unions from striking, sometimes without a hearing, and jailed leaders and members for refusing to cease striking until they had negotiated satisfactory agreements with their employers. The Illinois Federation of Teachers successfully opposed many efforts to pacify teachers and other public employees with legislative bills that would have mandated recognition of their unions but also prohibited strikes. Finally, in 1983, after decades of effort and self-sacrifice by union leaders and members, the Illinois legislature and governor enacted laws regulating and supporting collective bargaining for teachers and other public employees without restrictions on the right to strike. *Teachers beyond the Law* tells the true story of how these courageous teachers took a stand and changed the world.

Ethics and Law for School Psychologists Nov 18 2021 A comprehensive and robust discussion of practical issues and applications of legal-ethical rules for psychologists practicing in school settings In the newly revised Eighth Edition of *Ethics and Law for School Psychologists*, a team of expert practitioners and researchers delivers a one-stop sourcebook on ethics and law specifically designed for psychologists working in educational settings. It offers up-to-date information on the ethical principles and standards- and the law- relevant to providers of school psychological services. The book presents an integrated discussion of ethics and law and an ethical-egal decision-making model that supports socially just practice. Throughout, psychologists are encouraged to strive for excellence in their work with students, families, and teachers rather than meetin minimal obligations outlined in codes of ethics and law. Readers will also find: A thorough

introduction to the practice of psychology in a school setting, including quality control, ethics training, legal decision making, and unethical conduct. An exploration of the interaction between law and school psychology, including discussions of legal training for school psychologists and lawsuits against schools and school psychologists. Treatments of ethical and legal issues in the education of students with disabilities under the Individuals with Disabilities Education Act An indispensable resource for practicing school psychologists, psychiatrists, counselors, social workers, and other mental health professionals, *Ethics and Law for School Psychologists* is also an essential sourcebook for graduate students of psychology and social work students.

Encyclopedia of Education Law Sep 16 2021 CHOICE Outstanding Academic Title for 2009 "A welcome addition to any public or academic library, this set would also be of use in a law library where educational law might need to be explored and reviewed at a more basic level than other legal texts." —Sara Rofofsky Marcus, Queensborough Community Coll., Bayside, NY "Smaller educational legal summaries exist, and a couple of texts deal with Supreme Court cases about education, but this set provides a unique combination of general educational legal issues and case-specific information. It should be a welcome addition to academic and large public libraries. Also available as an ebook." — Booklist *The Encyclopedia of Education Law* is a compendium of information drawn from the various dimensions of education law that tells its story from a variety of perspectives. The entries cover a number of essential topics, including the following: Key

cases in education law, including both case summaries and topical overviews
Constitutional issues Key concepts, theories, and legal principles Key statutes
Treaties (e.g., the Universal Declaration on Human Rights) Curricular issues
Educational equity Governance Rights of students and teachers Technology
Biographies Organizations In addition to these broad categories, anchor
essays by leading experts in education law provide more detailed examination
of selected topics. The Encyclopedia also includes selections from key legal
documents such as the Constitution and federal statutes that serve as the
primary sources for research on education law. At the same time, since
education law is a component in a much larger legal system, the
Encyclopedia includes entries on the historical development of the law that
impact on its subject matter. Such a broadened perspective places education
law in its proper context in the U.S. legal system.

Education Law, Policy, and Practice Nov 26 2019 Education Law, Policy,
and Practice: Cases and Materials, Fifth Edition

Administrative Law Jul 03 2020 In this new edition, author Steven J. Cann
once again enlivens the topic of United States administrative law through the
use of recent and "classic" legal cases to make it accessible and interesting to
students. Administrative Law, Fourth Edition is an engaging casebook that
presents a unique problem-solving framework that contrasts democracy with
the administrative state. This novel approach places the often complex
subject matter of U.S. administrative law into a more comprehensible
context. The Fourth Edition has been completely updated and revised and
includes many new cases to reflect changes in the law since the year 2000.
