The Great Dismal Oct 30 2022 Just below the Tidewater area of Virginia, straddling the North Carolina-Virginia line, lies the Great Dismal Swamp, one of America's most mysterious wilderness areas. The swamp has long drawn adventurers, runaways, and romantics, and while many have tried to conquer it, none has succeeded. In this engaging memoir, Bland Simpson, who grew up near the swamp in North Carolina, blends personal experience, travel narrative, oral history, and natural history to create an intriguing portrait of the Great Dismal Swamp and its people. For this edition, he has added an epilogue discussing developments in the region since 1990.

Dismal Freedom Aug 28 2022 The massive and foreboding Great Dismal Swamp sprawls over 2,000 square miles and spills over parts of Virginia and North Carolina. From the early seventeenth century, the nearly impassable Dismal frustrated settlement.

However, what may have been an impediment to the expansion of slave society became an essential sanctuary for many of those who sought to escape it. In the depths of the Dismal, thousands of maroons—people who had emancipated themselves from enslavement and settled beyond the reach of enslavers—established new lives of freedom in a landscape deemed worthless and inaccessible by whites. *Dismal Freedom* unearths the stories of these maroons, their lives, and their struggles for liberation. Drawing from newly discovered primary sources and archeological evidence that suggests far more extensive maroon settlement than historians have previously imagined, award-winning author J. Brent Morris uncovers one of the most exciting yet neglected stories of American history. This is the story of resilient, proud, and determined people who made the Great Dismal Swamp their free home and sanctuary and who played an outsized role in undermining slavery through the Civil War.

Into the Sound Country Sep 24 2019 *Into the Sound Country* is a story of rediscovery--of two North Carolinians returning to seek their roots in the state's eastern provinces. It is an affectionate, impressionistic, and personal portrait of the coastal plain by two natives of the region, writer Bland Simpson and photographer Ann Cary Simpson. Here Bland Simpson tours his old waterfront haunts in Elizabeth City, explores scuppernong vineyards from Hertford to Southport, tramps through Pasquotank swamps and Croatan pine savannas, and visits Roanoke River oyster bars and Core Banks fishing shanties. Ann Simpson's original photographs

capture both the broad vistas of the sounds and rivers and the quieter corners of mossy creeks and country churchyards. Her selection of archival illustrations ranges from the informative to the humorous, from a turpentine scraper at work in the 1850s to a pair of little girls playing with a horseshoe crab on a Beaufort porch at the turn of the century. A memorable journey into eastern Carolina's richly varied natural world, *Into the Sound Country* is for anyone who would spend a while in one of America's most intriguing and underexplored areas.

Dred, Vol. 1 of 2 Dec 08 2020 Excerpt from *Dred, Vol. 1 of 2: A Tale of the Great Dismal Swamp* It, was important for her own interests that Mrs. Stowe should secure a copyright for the book in England, where a great audience awaited her, and she made a journey abroad in the early summer of 1856 with this end particularly in view. She had already arranged with Messrs. Sampson Low co. For its republication, and she wrote for the English edition a special preface which states concisely the aim she had in view in writing *Dred*. Wetland Carbon and Environmental Management Oct 25 2019 Explores how the management of wetlands can influence carbon storage and fluxes. Wetlands are vital natural assets, including their ability to take-up atmospheric carbon and restrict subsequent carbon loss to facilitate long-term storage. They can be deliberately managed to provide a natural solution to mitigate climate change, as well as to help offset direct losses of wetlands from various land-use changes and natural drivers. **Wetland Carbon and Environmental Management** presents a collection of wetland research studies from around the world to demonstrate how environmental management can improve carbon sequestration while enhancing wetland health and function. Volume highlights include: Overview of carbon storage in the landscape Introduction to wetland management practices Comparisons of natural, managed, and converted wetlands Impact of wetland management on carbon storage or loss Techniques for scientific assessment of wetland carbon processes Case studies covering tropical, coastal, inland, and northern wetlands Primer for carbon offset trading programs and how

wetlands might contribute The American Geophysical Union promotes discovery in Earth and space science for the benefit of humanity. Its publications disseminate scientific knowledge and provide resources for researchers, students, and professionals.

The Great Dismal Swamp in Myth and Legend Jul 27 2022

Freewater Dec 20 2021 Debut author Amina Luqman Dawson

pens a lyrical, accessible historical middle-grade novel about two enslaved children's escape from a plantation and the many ways they find freedom. After an entire young life of enslavement, twelve-year-old Homer escapes Southerland Plantation with his little sister Ada, leaving his beloved mother behind. Much as he adores her and fears for her life, Homer knows there's no turning back, not with the overseer on their trail. Through tangled vines, secret doorways, and over a sky bridge, the two find a secret community called Freewater, deep in the recesses of the swamp. In this new, free society made up of escaped slaves and some born-free children, Homer cautiously embraces a set of spirited friends, almost forgetting where he came from. But when he learns of a threat that could destroy Freewater, he hatches a plan to return to Southerland plantation, overcome his own cautious nature, and free his mother from enslavement. Loosely based on a little-mined but important piece of history, this is an inspiring and deeply empowering story of survival, love, and courage.

A Desolate Place for a Defiant People Jan 21 2022 Sayers

examines the Great Dismal Swamp's archaeological record from ca. 1600 until the time of the Civil War, exposing and unraveling the complex social and economic systems developed by the thousands of Indigenous Americans, Africa American maroons, free African Americans, enslaved company workers, and outcast Europeans who made the Swamp their home.

Dred Feb 19 2022

City of Refuge Nov 30 2022 *City of Refuge* is a story of petit marronage, an informal slave's economy, and the construction of internal improvements in the Great Dismal Swamp of Virginia and North Carolina. The vast wetland was tough terrain that most white Virginians and North Carolinians considered uninhabitable. Perceived desolation notwithstanding, black slaves fled into the swamp's remote sectors and engaged in petit marronage, a type of escape and fugitivity prevalent throughout the Atlantic world. An alternative to the dangers of flight by way of the Underground

Railroad, maroon communities often neighbored slave-labor camps, the latter located on the swamp's periphery and operated by the Dismal Swamp Land Company and other companies that employed slave labor to facilitate the extraction of the Dismal's natural resources. Often with the tacit acceptance of white company agents, company slaves engaged in various exchanges of goods and provisions with maroons--networks that padded company accounts even as they helped to sustain maroon colonies and communities. In his examination of life, commerce, and social activity in the Great Dismal Swamp, Marcus P. Nevius engages the historiographies of slave resistance and abolitionism in the early American republic. *City of Refuge* uses a wide variety of primary sources--including runaway advertisements; planters' and merchants' records, inventories, letterbooks, and correspondence; abolitionist pamphlets and broadsides; county free black registries; and the records and inventories of private companies--to examine how American maroons, enslaved canal laborers, white company agents, and commission merchants shaped, and were shaped by, race and slavery in an important region in the history of the late Atlantic world.
