Dasar pengajaran dan pembelajaran sains dan matematik dalam bahasa Inggeris (PPSMI) yang mula dilaksanakan pada tahun 2003, adalah suatu dasar yang dipersoalkan oleh para dan intelek Melayu dan kaum lain dengan serius. Ada empat isu besar yang sering dikemukakan. Pertama, keabsahan dasar ini ditentang. Dasar PPSMI ini melanggar Perkara 152 dalam Perlembagaan Persekutuan Malaysia. Di samping itu ia juga melanggar Perkara mengenai hak asasi rakyat, dan juga Akta Pendidikan. Kedua, tujuan memandatkan rakyat melalui sebuah bahasa asing itu adalah bertentangan dengan teori pembelajaran. Kita belajar dengan berkesan melalui bahasa ibunda. Proses pembelajaran melalui bahasa ibunda sekarang sudah terbukti berjaya, dan dasar PPSMI ini memutar jarum jam ke belakang. Ketiga, ada banyak kesan negatif penggunaan bahasa Inggeris ini kepada hasrat negara bagi membina bangsa Malaysia. Hasrat ini dilihat sebagai terancam kuat. Seterusnya, keempat, tujuan meningkatkan penguasaan, bahasa Inggeris pelajar melalui pengajaran dan pembelajaran sains dan matematik itu juga adalah sesuatu yang tidak dapat diterima dari segi pembelajaran bahasa. Penelitian ini menyimpulkan bahwa terdapat inkonsistensi penyajian wacana dalam buku teks PAI di sekolah dan madrasah, bermuatan toleransi di satu bagian dan bermuatan intoleransi di bagian lain serta terindikasi terinsersi radikalisme. Terdapat bagian dalam buku teks yang hanya menyajikan satu pandangan atas teks keagamaan, eksklusif terhadap perbedaan agama, bias gender dan tidak memperhatikan keragaman etnis dan budaya. Paradigma buku teks pendidikan agama Islam di sekolah dan madrasah dalam konteks lebih pragmatik dengan menyesuaikan perubahan zaman, bukan idealitas. Semakin bertahan dalam idealitas, semakin tidak konsisten. Hasil penelitian ini berupa model penyajian wacana bermuatan intoleransi dan radikalisme dalam buku teks PAI di sekolah dan madrasah. Buku teks Pendidikan Agama Islam terbitan Pemerintah seyogyanya menyajikan berikut. Pertama, menyajikan keragaman pandangan atas teks keagamaan atau permasalahan fikih yang masih dalam perdebatan. Kedua, menyajikan paradigma inklusif terhadap perbedaan agama. Ketiga, menyajikan wacana yang bermuatan inklusif gender. Keempat, tidak menyajikan wacana bermuatan intoleransi karena perbedaan etnis dan budaya. Kelima, tidak menyajikan wacana bermuatan radikalisme/kekerasan. Agama Islam tidak dilahirkan di Indonesia, namun justru negara inilah yang memiliki penduduk muslim dengan jumlah terbesar di dunia. Bagaimanakah cara agama ini masuk dan berkembang di antara suku dan budaya yang beragam di Nusantara? Fondasi pertanyaan ini kemudian menggerakkan Michael Laffan, Profesor Sejarah di Universitas Princeton, untuk meneliti proses tumbuh kembangnya Islam di Indonesia yang memiliki corak dan ciri khusus. Dari aneka ragam sumberdaya, Laffan mereka ulang sejarah interaksi dan diskusi ihwal Islam di Asia Tenggara, khususnya Indonesia. Islam di Indonesia kerap digambarkan bersifat moderat berkat peran yang dimainkan Sufisme mistis dalam membentuk pelbagai tradisinya. Menurut para pengamat Barat—mulai dari para administrator kolonial, para cendekiawan orientalis Belanda, hingga para antropolog modern seperti Clifford Geertz—penafsiran Islam yang damai ala Indonesia terus-menerus mendapat ancaman dari luar oleh tradisi-tradisi Islam yang lebih keras dan intoleran. Sejarah Islam Nusantara menawarkan sebuah penilaian yang

lebih berimbang terhadap sejarah intelektual dan kultural Indonesia. Michael Laffan menyusuri bagaimana citra populer mengenai Islam Indonesia dibentuk oleh berbagai perjumpaan antara para cendekiawan kolonial Belanda dan para pemikir Islam reformis. Tak berhenti sampai di situ, Laffan juga menyuguhkan peran-peran tradisi Arab, Cina, India, dan Eropa yang telah saling berinteraksi sejak awal masuknya Islam. Hasil perkawinan lintas budaya dan intelektualitas inilah yang kemudian melahirkan Islam Nusantara. "Sejarah Islam Nusantara merupakan kontribusi keilmuan yang mengesankan dan penting, mengandung informasi berlimpah dan sudut pandang kritis bagi para cendekiawan dan peneliti yang sebidang." —Christina Sunardi, *American Journal of Islamic Social Sciences* "Terlepas dari gaya berapi-api yang kadang jenaka, buku ini padat dan dapat menjadi bahan diskusi.... Menarik." —Anthony H. Johns, *Journal of Southeast Asian Studies* "Michael F. Laffan menulis buku yang gembur, sangat informatif, dan sangat inspiratif. Semua orang yang ingin menekuni Islam di Indonesia dan Orientalisme Belanda harus membacanya." —Stephan Conermann, *Sehepunkte* "Buku ini merupakan sumbangsih besar bagi Islam di Indonesia." —Barbara Watson Andaya, co-writer *A History of Malaysia* [Mizan, Bentang Pustaka, Bunyan, Islam, Sejarah, Budaya, Indonesia] 'Toward a Better Future' provides a comprehensive analysis of education development in Singapore since 1965, giving particular attention to the strategic management that has enabled Singapore to transform its education and training system from one similar to that of many Sub-Saharan African countries four decades ago into one of the world's best-performing systems. It is one of a pair of concurrently-published books presenting materials originally developed for a 2006 study tour to Singapore and Vietnam for senior education officials from Cameroon, Ethiopia, Ghana, Lesotho, Madagascar, and Mozambique. The second book, 'An African Exploration of the East Asian Education Experience', presents five country studies, as well as regional, comparative analyses highlighting insights gained during the study tour and putting them in the context of Sub-Saharan Africa. Together, the two books aim to foster knowledge exchange between Sub-Saharan African and East Asian countries on good practices in the design and implementation of education policies and programs. By facilitating the cross-country fertilization of ideas between two regions with relatively limited contact in the past, these books fill a clear gap in the current literature on development practice in education. The aim of this book is to bridge the widening gap between ongoing educational reforms and the lack of advances in knowledge, research and practice. Included is a description of new mechanisms in fields such as leadership, staff development and curriculum change. This book offers a counterpart to the extensive corpus of literature available on the

same topic from a Western perspective. It showcases innovative approaches to professional development of mathematics teachers in Asian countries, and reports on both empirical and expository studies of teachers' professional development in these countries. It provides scholars from non-English-speaking and under-represented Asian countries the opportunity to engage in discourse with other scholars in the field, and is the first book to present substantial contributions from scholars in Asia on the professional development of mathematics teachers in their respective countries. It includes perspectives that shed valuable light on how the approaches pursued in Asian countries resemble or differ from those in the West.

Buku ini merupakan sebuah antologi yang ditulis oleh mahasiswa program studi magister Sejarah Peradaban Islam Fakultas Adab dan Ilmu Budaya UIN Sunan Kalijaga Yogyakarta. buku ini merupakan hasil dari tugas arsip belanda untuk memenuhi tugas matakuliah Bahasa Sumber. Sebagai kumpulan tulisan, tentu tema yang dibahas dalam buku ini cukup beragam. Benang merah yang menyatukan berbagai tulisan itu adalah tema besarnya, yakni studi Islam yang berkaitan dengan periode kolonial yang dalam hal ini termuat dalam Bahasa Belanda dalam Studi Islam. Studi Islam Indonesia masa kolonial kita tidak bisa mengelak dari kebutuhan akan kemampuan Bahasa Belanda. Mengapa? Pemerintah Hindia Belanda mengarsipkan peristiwa-peristiwa penting yang dilakukan oleh pribumi termasuk organisasi-organisasi ke-Islaman dalam Bahasa Belanda. Apalagi tentang politik. Topik ini bisa jadi paling hangat dibicarakan karena masanya yang tepat. Masa kolonial tidak bisa dilepaskan dari kepentingan Pemerintah Kolonial Hindia Belanda yang ingin memanfaatkan sumber daya alam Indonesia semaksimal mungkin. Terakhir, baik di UIN, IAIN, STAIN dan UGM Bahasa Belanda menjadi matakuliah yang dianggap penting untuk kepentingan studi Islam (Indonesia).

This book provides a detailed description of research and application outcomes from the

Assessment and Teaching of 21st Century Skills project, which explored a framework for understanding the nature of these skills. The major element of this new volume is the presentation of research information from the global assessment of two 21st century skills that are amenable to teaching and learning: collaborative problem solving, and learning in digital networks. The outcomes presented include evidence to support the validity of assessment of 21st century skills and descriptions of consequent pedagogical approaches which can be used both to teach the skills and to use them to enhance key learning goals in secondary education systems. The sections of the volume are connected through a focus on the degree to which innovative assessment tasks measure the constructs of interest. This focus is informed by conceptual and methodological issues associated with affordances of 21st century computer-based assessment. How understanding of the nature of the skills, as derived from these assessments, can guide approaches to the integration of 21st century skills in the classroom, is informed by initiatives adopted by participating countries. The guiding questions in this volume are: "Do the assessment tasks measure the constructs?" and "What are the implications for assessment and teaching in the classroom?" It is the third volume of papers from this project published by Springer. Collection of professional circulars on elementary and secondary education in Malaysia issued by Ministry of Education from 1969 to 2007. The first edition of this book was the first text to be written on the Arena software, which is a very popular simulation modeling software. What makes this text the authoritative source on Arena is that it was written by the creators of Arena themselves. The new third edition follows in the tradition of the successful first and second editions in its tutorial style (via a sequence of carefully crafted examples) and an accessible writing style. The updates include thorough coverage of the new version of the Arena software (Arena 7.01), enhanced support for Excel and Access, and updated examples to reflect the new version of software. The CD-ROM that accompanies the book contains the Academic version of the Arena software. The software features new capabilities such as model documentation, enhanced plots, file reading and writing, printing and animation symbols.

Pendidikan pada hakikatnya adalah upaya untuk melakukan perubahan pada individu yang pada gilirannya diharapkan mengubah masyarakat ke arah yang lebih baik. Karena pendidikan dapat mengubah seseorang, maka Driyarkara (1955) menyebut pendidikan sebagai perbuatan fundamental. Di dalam situasi yang terus berubah, satu hal yang tidak berubah adalah fokus atau subjek pokok pendidikan, yaitu murid. Semua upaya dan sumber daya diarahkan demi berkembangnya murid. Buku ini mencoba menempatkan berbagai gagasan hanya demi kemajuan para murid. Buku ini terdiri atas empat bagian, yaitu: BAGIAN I:

Pendidikan Generasi Milenial, BAGIAN II: Pembelajaran yang Mencerdaskan, BAGIAN III: Pendidikan Karakter, dan BAGIAN IV: Guru. Semoga gagasan-gagasan yang disajikan di dalam buku ini memicu diskusi-diskusi agar proses belajar di kalangan para pendidik terus berlangsung, sehingga ditemukan model-model dan cara-cara pendidikan yang tanggap zaman demi perkembangan para murid secara optimal. An exploration of the technical, social, legal, and economic aspects of the scholarly infrastructure needed to support research activities in all fields in the twenty-first century. Scholars in all fields now have access to an unprecedented wealth of online information, tools, and services. The Internet lies at the core of an information infrastructure for distributed, data-intensive, and collaborative research. Although much attention has been paid to the new technologies making this possible, from digitized books to sensor networks, it is the underlying social and policy changes that will have the most lasting effect on the scholarly enterprise. In Scholarship in the Digital Age, Christine Borgman explores the technical, social, legal, and economic aspects of the kind of infrastructure that we should be building for scholarly research in the twenty-first century. Borgman describes the roles that information technology plays at every stage in the life cycle of a research project and contrasts these new capabilities with the relatively stable system of scholarly communication, which remains based on publishing in journals, books, and conference proceedings. No framework for the impending "data deluge" exists comparable to that for publishing. Analyzing scholarly practices in the sciences, social sciences, and humanities, Borgman compares each discipline's approach to infrastructure issues. In the process, she challenges the many stakeholders in the scholarly infrastructure—scholars, publishers, libraries, funding agencies, and others—to look beyond their own domains to address the interaction of technical, legal, economic, social, political, and disciplinary concerns. Scholarship in the Digital Age will provoke a stimulating conversation among all who depend on a rich and robust scholarly environment.
