**The Old Magic of Christmas** Feb 19 2022 'Tis the Season for Witches, Elves, and a Legion of Ghosts Not so very long ago, Yuletide was as much a chilling season of ghosts and witches as it was a festival of goodwill. In *The Old Magic of Christmas*, you'll rub elbows with veiled spirits, learn the true perils of elves, and discover a bestiary of enchanted creatures. Rife with the more frightful characters from folklore and the season's most petulant ghosts, this book takes you on a spooky sleigh ride from the silvered firs of a winter forest to the mirrored halls of the Snow Queen. Along the way, you'll discover how to bring the festivities into your home with cookie recipes and craft instructions, as well as tips for delving more deeply into your relationship with the unseen. Praise: "Steeped in history and adorned with a bit of enchantment, *The Old Magic of Christmas* is the perfect book to read by a winter's fire with a mug of mulled cider in

hand.” —Deborah Blake, author of *The Witch’s Broom* “. . . a fascinating journey into the stories behind the tinsel and bows.”—Doreen Shababy, author of *The Wild & Weedy Apothecary* “. . . an intriguing little tome that explores the darker side of the Yuletide holiday.”—Ellen Dugan, author of *The Enchanted Cat Cuddle Quilts for Little Girls and Boys* Mar 30 2020

Welcome and nurture those precious little ones by creating quilts, crafts, and decor for nurseries and toddler rooms. Designer Debbie Mumm helps you release your inner child and cuddle up the kids with more than 50 fun projects. Themes include Moon & Stars, Zigzag Zoo, Silly Safari, and lots more. For little girls, there are sweet bed quilts, a headboard, and bedside lamps in sugar and spice themes like butterflies, hearts, and flowers. Because growing boys gravitate towards snips and snails, cars and trucks, frogs and boats, you can fill his room with a clever organizer, playful twin bed quilt, and a painted

toy chest in bright primary colors. And since time moves fast when children are young, these projects are designed to be quick and easy! Debbie Mumm's *Cuddle Quilts for Little Girls and Boys* (Leisure Arts #4541)

[Designer Scrapbooks with Anna Griffin](#) Aug 28 2022 She’s a scrapbooking celebrity, and now Anna Griffin, the well-known designer of stationery, invitations, and decorative papers, shares her ideas and insights with all crafters. Every image in this colorful compilation was inspired by cherished family traditions and the personal stories Anna has collected from scrapbookers everywhere; and every layout features a unique technique, embellishment, and palette to make it truly celebratory. From birthday traditions (such as a beautiful “strawberry pink” cake page in honor of Anna’s mother) to family vacation postcards, there’s something special for every occasion. The many memorable moments so beautifully commemorated include Easter (tabs reveal

hidden photos), weddings (with a folded pocket for keeping love letters), and New Year's "champagne wishes."

**Cookie Canvas** May 01 2020 Create works of art almost too good to eat! **The Field Guide to Hacking**

Sep 28 2022 In *The Field Guide to Hacking*, the practises and protocols of hacking is defined by notions of peer production, self-organised communities, and the intellectual exercise of exploring anything beyond its intended purpose.

Demonstrated by way of Dim Sum Labs hackerspace and its surrounding community, this collection of snapshots is the work generated from an organic nebula, culled from an overarching theme of exploration, curiosity, and output. This book reveals a range of techniques of both physical and digital, documented as project case studies. It also features contributions by researchers,

artists, and scientists from prominent institutions to offer their perspectives on what it means to hack. Altogether, a manual to overcome the limitations of traditional methods of production.

**12 Shining Lanterns** Mar 11

2021 The Lanterns are the essential components of astrology distilled to capture an essence, a potent force you can work with and recognize throughout your life. You will discover how the essences of the 12 lanterns shine within you. By working through each of the lantern exercises you will be able to tap into their energy and engage on a

personal level. We are made up of not just one lantern but have within us the framework of all 12 and this template can be used to assist us throughout our whole life. As you become aware of the cycles and patterns of the universe, understanding the lanterns gives you the tools to align with nature and in turn connect with your inner nature.

Astrology harmonizes us with the celestial spheres and attunes us to the keys held in natural law. You will be able to align yourself with the natural flow of each month. Discover the motivational reminder for each zodiac sign. Work through the 7 Lantern questions for each month to reveal individual drives, potential and motivations. Learn where your personality sits on the Tree of Life and the corresponding Cosmic Law. Discover how the roots of Astrology is linked to Nature and the forces within us. The colourful template of Nature provides a framework of learning that can be enjoyed at all stages of our life.

Where Did All the Cowboys Go?

Oct 06 2020 History is more than national personalities, wars, and horrible catastrophes; it is stories told by people who have lived ordinary lives. In *Where Did All the Cowboys Go?*, author Joe Millard gives a first-person account of what life was like growing up in rural Iowa in the 1940s. From the perspective of young Gene Millard, this memoir reveals the experiences of a one-room school education where pupils studied geography from a globe, read the children's classics, learned sportsmanship on the playground, and bought war bonds. It also recounts Gene's non-classroom life experiences in Farlin, Iowa, where he learned to play pool at the village gossip center next to the blacksmith shop, loathe boxing in the IOOF hall, and understand friendship at a box social. Gene's experiences mirror those of the thousands of children who grew up on farms in the Midwest and Great Plains in the 1940s. The recollection of these memories will lead others to remember

the nostalgia of the days of Saturday cowboy movies, participating in Christmas school plays, fishing in creeks, and enjoying community events. It provides a personal perspective of the times and fills a void in the history books. [Creative Activities for the Early Years](#) Nov 30 2022 Creative Activities for the Early Years contains over 160 art and music activities for use with children aged 0-5. These tried and tested activities, which include songs, rhymes, and story suggestions, are ideal for use in all early years settings. Whether your topic is the autumn, the Chinese New Year or the coastline, you can be sure that children will find the art and music ideas in this book interesting and entertaining. The activities encourage children to use their imagination to communicate ideas, and develop their gross and fine motor skills. The activities are grouped by popular early years themes and can be used as a complete programme or as a dip-in resource.

**Lighting** Apr 23 2022 *Lighting*, now in its sixth edition, is the standard text on the principles and practice of lighting interiors and exteriors. The book introduces all the main principles of light and colour, along with the design of general lighting schemes. It complies with the CIBSE lighting code and guides, covers the main calculations that a lighting designer needs to do and includes worked examples. The book starts with the theory of light and how it is perceived by the eye. It looks

at the units used and the subjective effect of colour. The characteristics of various types of lamp are described along with luminaires (the equipment that contains the lamps). The effects of daylight on light levels indoors are described before going on to look at the design of general lighting schemes. The book concludes with chapters looking at lighting for specific applications including roadway lighting, floodlighting, and the interior of specific building types.

*Media Archaeology and Intermedial Performance* Oct 18 2021 This book develops media archaeological approaches to theatre and intermediality. As an age-old art form, theatre has always embraced 'new' media. To create theatrical effects and optical illusions, theatre makers were ready to integrate state-of-the-art technics and technologies, and by doing so they playfully explored and popularized scientific knowledge on mechanics, optics and sound for live audiences. This book highlights

this obvious but often overlooked relation between media developments and the history of intermedial theater. By considering the interplay between present intermedial performances and their archaeological traces, the authors assembled here revisit old and often forgotten media approaches and theatre technologies. This archaeology is understood less as the discovery of a forgotten past than as the establishment of an active relationship between past and present. Rather than treating archaeological remains as representative tokens of a fragmented past that need to be preserved, the authors stress the return of the past in the present, but in a different, performative guise.

**The Palgrave Handbook of Gothic Origins** Nov 06 2020

This handbook provides a comprehensive overview of

research on the Gothic Revival. The Gothic Revival was based on emotion rather than reason and when Horace Walpole created Strawberry Hill House, a gleaming white castle on the banks of the Thames, he had to create new words to describe the experience of gothic lifestyle. Nevertheless, Walpole's house produced nightmares and his book *The Castle of Otranto* was the first truly gothic novel, with supernatural, sensational and Shakespearean elements challenging the emergent fiction of social relationships. The novel's themes of violence, tragedy, death, imprisonment, castle battlements, dungeons, fair maidens, secrets, ghosts and prophecies led to a new genre encompassing prose, theatre, poetry and painting, whilst opening up a whole world of imagination for entrepreneurial female writers such as Mary Shelley, Joanna Baillie and Ann Radcliffe, whose immensely popular books led to the intense inner landscapes of the Bronte sisters. Matthew Lewis's *The*

Monk created a new gothic: atheistic, decadent, perverse, necrophilic and hellish. The social upheaval of the French Revolution and the emergence of the Romantic movement with its more intense (and often) atheistic self-absorption led the gothic into darker corners of human experience with a greater emphasis on the inner life, hallucination, delusion, drug addiction, mental instability, perversion and death and the emerging science of psychology. The intensity of the German experience led to an emphasis on doubles and schizophrenic behaviour, ghosts, spirits, mesmerism, the occult and hell. This volume charts the origins of this major shift in social perceptions and completes a trilogy of Palgrave Handbooks on the Gothic—combined they provide an exhaustive survey of current research in Gothic studies, a go-to for students and researchers alike.
