Night in the Dog's Head Jun 01 2020 Night in the Dogs Head is a historically-based novel of courage and sacrifice. American soldiers are committed to a war half-way around the world to preserve a nation from a takeover by a socialist tyrant. The policy that sent Americans to Asian battlefields was subsequently repudiated. For the next three years US Forces fought and died in a war their country no longer wanted to win. While American forces consistently won their battles and inflicted appalling casualties on their foe, a poorly informed and sensation-seeking media mislead the American public, conflicted politicians turned against the war, and the US submitted to a third-rate Asian nation. The novel is set in the political and military affairs of the time. It realistically presents the courage and dedication, the successes and the failures of the men who fought - not for principal, but to survive a war their nation didnt want to win. Friend and foe alike are followed to reveal who they were, how and why they fought. It is a story of the Vietnam War the way it was. At the center is a single

undermanned American battalion destined to face a numerically-superior enemy whose orders are to, kill the Americans. After more than 58,000 Americans were killed in action, US forces were withdrawn without a single concession from the enemy. The units cited are real; the incidents and characters have been contrived to suit the story.

The Year 1000 Jul 03 2020 THE YEAR 1000 is a vivid evocation of how English people lived a thousand years ago - no spinach, sugar or Caesarean operations in which the mother had any chance of survival, but a world that knew brain surgeons, property developers and, yes, even the occasional gossip columnist. In the spirit of modern investigative journalism, Lacey and Danziger interviewed the leading historians and archaeologists in their field. In the year 1000 the changing seasons shaped a life that was, by our standards, both soothingly quiet and frighteningly hazardous - and if you survived, you could expect to grow to just about the same height and stature as anyone living today. This exuberant and informative book concludes as the shadow of the millennium descends across England and Christendom, with prophets of doom invoking the spectre of the Anti-Christ. Here comes the abacus - the medieval calculating machine - along with bewildering new concepts like infinity and zero. These are portents of the future, and THE YEAR 1000 finishes by examining the human and social ingredients that were to make for survival and success in the next thousand years.

The Liverpool English Dictionary Oct 06 2020 Know someone with an antwacky stem-winder? Heard the Band of Hope Street? Ever been on a vinegar trip? Do you jangle? Ever met a Cunard yank in the Dingle? Could you pay for a dodger with a joey? Have you heard a maccyowler in a jigger? The Liverpool English Dictionary records the rich vocabulary that has evolved over the past century and a half, as part of the complex, stratified, multi-faceted and changing culture of this singular city. With over 2,000 entries from 'Abbadabba' to 'Z-Cars', the roots/routes, meanings and histories of the words of Liverpool are presented in a concise, clear and accessible format. Born and bred in Liverpool, Professor Tony Crowley has spent over thirty years compiling this bold and innovative dictionary, investigating historical lexicons, sociological studies, works of history, local newspapers, popular cultural representations, and, most importantly, the extensive 'lost' literature of the city. Illuminating, often remarkable, and

always enjoyable, this book transforms our understanding of the history of language in Liverpool.
